

# ORACLE DATABASE EXADATA CLOUD MACHINE

## ORACLE CLOUD AT CUSTOMER

### CLOUD DATA MANAGEMENT CHALLENGES

**Data Security & Sovereignty**

**Picky End-Users?**

**Need to Get Data to Users Faster?**  
**Want to Ease Database Migration?**

**Not Ready for Public Cloud?**

**Do Generic Cloud Offerings Lack Performance?**

### ORACLE DATABASE EXADATA CLOUD MACHINE TO THE RESCUE

**A Fully Integrated Solution - Oracle Hardware, Database and Cloud Software**

**Owned and Managed Cloud Solution by Oracle. Resides Behind Your Fire Wall**

**Development and Test, Active Standby/DR and deploy production workloads at Scale**

### HOW IT WORKS

**Pay Only For What You Use: Options to Suspend Support Costs for On-premises ULA & Non-ULA Licenses**

**The Highest Level Of Cloud Based Security**

**No More Over-Provisioning: Sizing Tuned to Usage, with Hourly Bursting For Peak Consumption**

**Instant Analytics For Real Time Business Results**

### YOUR DATA, YOUR CLOUD WITH EXTREME PERFORMANCE

**Control Operational Costs**

**Operational flexibility, for OLTP and data sensitive workloads**

**Agile IT with Faster Deployment**

**Less over-provisioning, sized to lower infrastructure operational burden**

**Faster Path to Business Insights**

**Out-of-the-box data warehouse and analytics**

## Exadata Your Way: In the Cloud, On Premises, or Both

Cloud Scale, Simplicity and Unparallel Database Performance in the Cloud.
