

Managed Services

about us

Centroid is a cloud service and technology company that provides Oracle enterprise workload consulting and managed services across Oracle, Azure, AWS, GCP, and private cloud. From applications to technology to infrastructure, Centroid's depth of Oracle expertise and breadth of cloud capabilities help clients modernize, transform, and grow their business to the next level.

Embedded in our DNA is a relentless pursuit to help you succeed. Through our unparalleled understanding of Oracle, complete service offerings, and dedicated technology experts, we go beyond the surface of business and technology to help you accomplish your goals.
